

Comparison of 3M™ Nomad™ Entryway System with ordinary matting products

Product	Durability	Performance
3M™ Nomad™ Entryway System	No crushed fibers No unraveling fibers No fiber detachment 1% broken fibers	5% visibility of dirt
Plastic Matting	No crushed fibers 4% unraveling fibers 40% fiber detachment 3% broken fibers	65% visibility of dirt
Vinyl Coated Looped Matting	90% crushed fibers 6% unraveling fibers No fiber detachment No broken fibers	40% visibility of dirt
Grass Matting	100% crushed fibers No unraveling fibers 15% fiber detachment 20% broken fibers	25% visibility of dirt
Rubber Tipped Matting	No crushed fibers No unraveling fibers No fiber detachment 2% broken fibers	100% visibility of dirt

Ordinary Mats

- Dirt & dust stay on top after wiping
- Get tracked again into building

- Get waterlogged easily
- Water causes slips & falls, tracked into premises

3M™ Nomad™ Entryway System

- Dirt & dust are trapped & hidden below surface
- Easy to clean

- Open construction helps drainage
- Water seeps away from foot traffic

For The Perfect Image
Because Image Matters

3M™ Nomad™ Entryway System

Use 3M™ Nomad™ Entryway System to stop dirt in its tracks

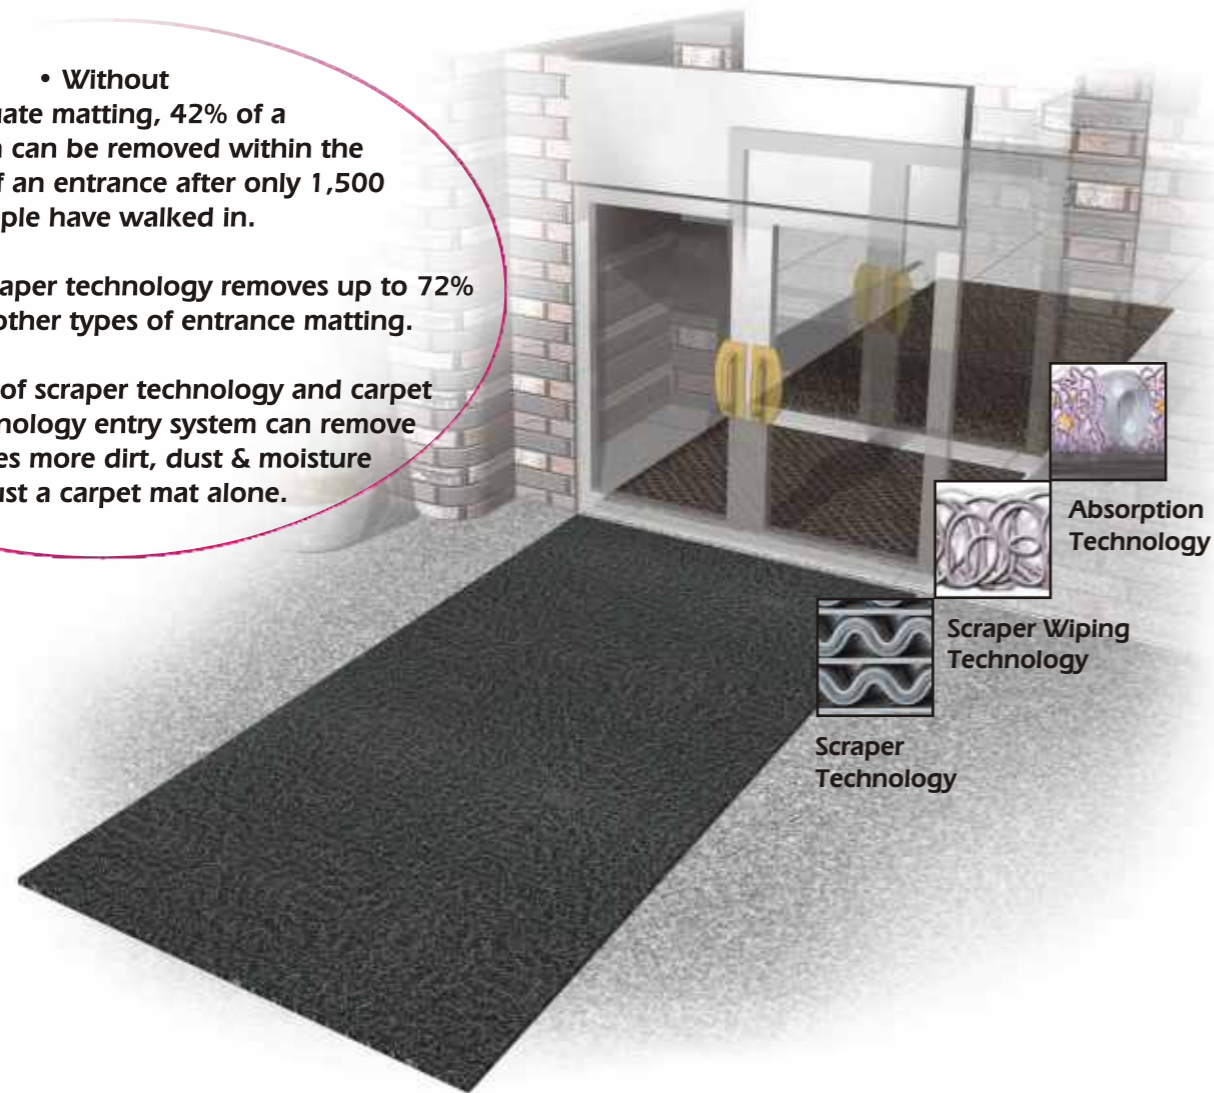

- Stops dirt, dust and moisture at the entrance door.
- Attractive styling and durability
- Reduces maintenance costs.

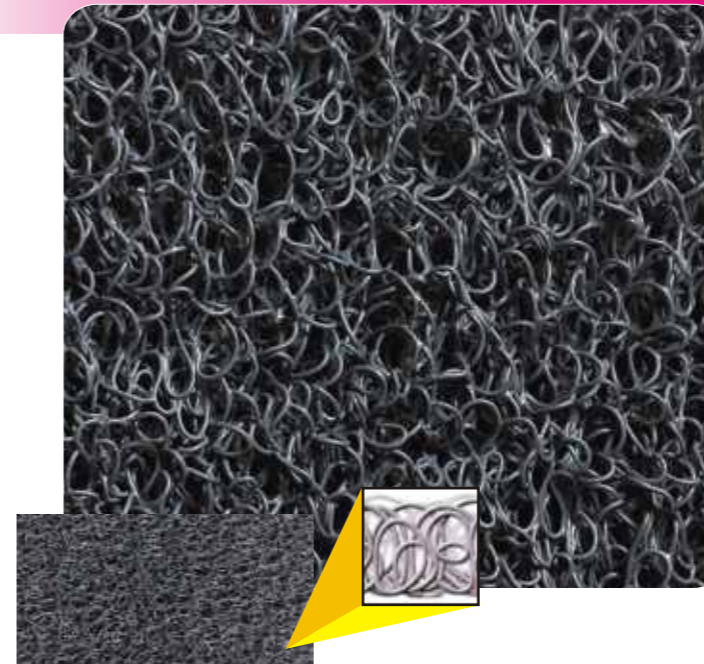

• Without adequate matting, 42% of a floor's finish can be removed within the first six feet of an entrance after only 1,500 people have walked in.

• 3M™ Nomad™ Scraper technology removes up to 72% more dirt than other types of entrance matting.

• A combination of scraper technology and carpet absorption technology entry system can remove up to 10 times more dirt, dust & moisture than just a carpet mat alone.

3M™ Nomad™ Scraper Wiping Technology

3M™ Nomad™ Scraper Wiping Technology

- Collects dry dust as people pass through the entrance.
- Resilient vinyl loop construction with abrasion resistant coating.

Property	Nomad™ Wiping
Construction	Coil open loop construction with vinyl foam backing
Material	Poly vinyl
Standard Size	3' & 4' width Custom sizes available on request
Colour	Available in popular grey & red shades Additional colours available on request
Inflammability	Made from materials which inhibit fires. Passes DOC FF-1 (Pill Test)
Electrostatic Propensity	Neolite soles: 2.5KV +ve Chrome leather soles: 0.6KV +ve
Varieties Available	Low duty, medium duty and heavy duty

3M™ Nomad™ Scraper Technology

3M™ Nomad™ Scraper Technology

- Removes sticky dirt and water from shoes before people enter buildings.
- Peaked edges scrape off dirt & debris.

Property	Nomad™ Scraper
Construction	Z-web design with raised edges for scraping dirt.
Material	Poly vinyl
Standard Size	3' & 4' width Custom sizes available on request
Colour	Available in popular grey & red shades Additional colours available on request
Inflammability	Made from materials which inhibit fires. Passes DOC FF-1 (Pill Test)
Varieties Available	Medium duty, heavy duty and extreme heavy duty

3M™ Nomad™ Absorption Technology

3M™ Nomad™ Absorption Technology

- Captures fine sand & dust particles and moisture inside the door.
- Dual-fibre design removes and hides small soil particles and wicks away water.

Property	Nomad™ Absorption
Construction	Looped pile carpet design with solid vinyl backing
Material	Polypropylene & nylon with vinyl backing
Standard Size	2'x3', 3'x5', 4'x6', 3'x10', 4'x10' Bigger sizes available on request
Colour	Available in popular slate & brick shades Additional colours available on request
Inflammability	Made from materials which inhibit fires. Passes DOC FF-1 (Pill Test)
Electrostatic Propensity	Neolite soles: 3.5KV +ve Chrome leather soles: 1.6KV +ve
Varieties Available	Medium duty and heavy duty
