

## DUO Air Freshener

Mystair introduces ENVIRO SENZ, range of odourfoyl® technology driven air freshener, with dual-scent feature (ability to alternate between two different fragrances). It deodorizes up to 6,000 cubic feet of space and is ideal for medium & large-sized areas. The dispenser comes with advanced customizable features, such as 24 hrs, day/night settings.

Various pleasant fragrances, extracted from pure essential oils, are available to soothe your senses. EVA: Ethyl vinyl acetate, a recyclable material, is used to develop cartridges – that further enhance our commitment towards nature.

### DUO air freshener dispenser

Corridor

### AEROSOLS VS DUO AIR FRESHENER

AEROSOLS	DUO AIR FRESHENER
Aerosol molecules are heavy and fall on the floor quickly, reducing/limiting efficacy.	Lighter molecules have a greater spread and linger in the air longer, ensuring long-lasting fragrance.
Strong for 1-2 minutes after spray, efficacy reduces as time passes by.	Smooth & dependable fragrance that lasts for long.
Contains harmful chemicals like VOC (Volatile organic compound), which can affect the environment and human health.	Contains innovative Ethyl Vinyl Acetate (EVA) technology ideal for fragrance housing and can be recycled easily.
Can only be oriented in one direction; only mounting option.	Convenient wall-mounting (horizontal or vertical) or desktop mounting options.

## POD Air Freshener

Mystair introduces ENVIRO SENZ POD, range of Odourfoyl® technology driven mini air freshener, the greenest & most effective air freshening device known today. POD with its centrifugal fan technology and four - quadrant vent holes allow 360° fragrance dispersion, without the use of aerosol or solvents.

ENVIRO SENZ fragrances available are made of pure essential oils and does not contain harmful propellants that may harm the environment.
